EDUCATION

Columbus State Community College

AAS - Computer Science
2021 - 2023

The Ohio State University

BSEd - Sport Industry
2014 - 2018

SUMMARY

Passionate front-end developer with a formal education in web development and a strong foundation in JavaScript, React, HTML, CSS, and jQuery. My education background allows me to blend creativity with traditional problem-solving. My work background refined my attention to detail and workflow optimization. Experienced in Git for project management and WordPress for content management. Seeking a Junior Developer role to contribute, grow, and create meaningful digital experiences.

PROJECTS

Hinge to Harris

- Website regarding my upcoming wedding with details including the date, location, a form to RSVP, and a link to the registry, and details about the bride and groom.
- Developed with WordPress, using plugins and an external RSVP form.

Harris Kitchen Table

- Full-stack demo restaurant website with React and JavaScript on the frontend, integrated with PocketBase for efficient content management.
- Leveraging HTML and CSS for responsive design and smooth user experience.

Vinyl Finder

- Developed a platform with JavaScript, HTML, CSS and Bootstrap to locate available vinyl records from both online and in-store sources.
- Integrated Google Search API to streamline searches for vinyl-exclusive copies of albums.

WORK EXPERIENCE

Amazon | North Randall, OH

Fulfillment Center Associate | May 2019 - Present

- Optimized delivery operations by organizing customer products efficiently, consistently meeting and exceeding departmental targets.
- Resolved operational challenges as Amnesty Floor Monitor, contributing to the seamless success of multiple departments.
- Collaborated with team members to eliminate workflow bottlenecks, enhancing overall efficiency and ensuring timely processing of orders.
