PROJECTS

Budget Builder – *2024 (in progress)*

- Developing user-friendly budget management application that tracks monthly income, expenses and discretionary spending.
- Utilizing C#, .NET, JavaScript, HTML, and CSS to create a seamless interface for personal finance management.

Harris Kitchen Table – *2024 (in progress)*

- Designing a full-stack demo restaurant website with React and JavaScript on the frontend, integrated with Pocketbase for efficient content management.
- Leveraging HTML and CSS for responsive design and smooth user experience.

Vinyl Finder – *2023*

- Built a web app using the Google Search API to help users locate vinyl records, using JavaScript, jQuery, HTML, CSS, and Bootstrap.
